Domestic Minor Sex Trafficking and Its Impact on Children in Foster Care

Domestic minor sex trafficking is an escalating crime in the United States. Studies conducted by the FBI's Innocence Lost Taskforce find that over 60 percent of the children rescued in taskforce stings in the U.S. have either been in foster care or otherwise system-engaged. This course will educate foster parents about the issue of human trafficking, including how to prevent victimization; indicators of possible commercial sexual exploitation; and how to safely and effectively respond to and report concerns.

Approved for 6 Hours of Foster Parent Credit
